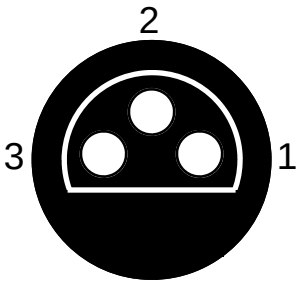
240 LH 2.0 Ignition Harness 3515523 Conversion to 3515722 using ROUND connector at distributor

The below round plug distributor plug is extinct and unavailable. If you need the ignition harness with the round plug, a simple conversion is possible. The square plug harness is wired identically. You will simply need to cut off the square distributor plug and splice on the round one from your old harness. Splice Yellow to Yellow, Green to Green and Black to Black.

3-POLE ROUND DISTRIBUTOR PLUG

For WHITE cap type ignition distributor.



View from REAR (wires)
