Mi 96.1/43.7 INTERSECTION: 35.139792,-115.217798
Junction Mojave Road with EL DORADO CAÑON ROAD.
Historic route north through Searchlight, Nevada and
beyond to gold mines in El Dorado Cañon, circa 1860s.
This route also connected travelers to the Salt Lake Trail.
The El Dorado trail from here to the northeast is faint in
some areas, but still exists in a nearly straight line through
Lanfair Valley, merging with the East Lanfair Valley Trail in
11.3 miles at 35.228664,-115.060938. This intersection
can be found on map MojaveRd7 East Lanfair Tr North

Junction with road.

Road to northwest is difficult to see from the east/west roads. It was a prominent road on early maps. It follows on the east side of a small wash for about 600 feet and then becomes visible at this point. Junction with New York Mountain Road will be about 2.8 miles northwest.

EL DORADO CAÑON ROAD

Junction with EAST LANFAIR VALLEY TRAIL.
El Dorado Cañon Road merges with the East Lanfair Valley Trail beginning here and they run together to the north. The El Dorado Cañon Road from here to the southwest runs in nearly a straight line through Lanfair Valley, although it's a bit faint in some areas. It ends at the Mojave Road in 11.3 miles at GPS 35.139792,-115.217798. This intersection can be found on map MojaveRd2East Page 27.
